## Share our passion for furniture!

### A short introduction

The history of HIGOLD as a company goes back to 1989. From the nineties the company developed itself to a reliable manufacturer of kitchen hardware. From 2011 we may call ourselves a leading brand in China. In 2005 we decided to expand our business activities with furniture, to be precise top quality outdoor furniture. First under private label, later on we decided to launch and build our own brand HIGOLD excellent outdoor.

### A brand with a mission

That is for sure. We like to inspire the luxury outdoor market with our brand and prove our promise: live the excellent life. Not only in China, but all over the world. Therefore we launched HIGOLD excellent outdoor shop in Europe at the first quarter of 2014 and started launching the brand with one of our partners in the Netherlands. From here we have connected various enthusiastic agents, dealers and retailers and we are building the brand. At the moment we are active in Holland, Germany, Spain, Portugal, Italy, Switzerland, Belgium, USA and Qatar. In these countries famous hospitality brands like Hilton, Sheraton and Jade Beach have already met the brand and gave their terrace the right ambiance with one or more HIGOLD models.

### Our ambition

All together the HIGOLD business activities have led to a very promising turnover. A result that we are absolutely proud of. But we are ambitious and are ready for our next step. In terms of our collection and in terms of expanding to additional countries. To start with Northern America. To handle this growth ambition we have just finished building a complete new sustainable factory. Wherefore we obtained all relevant certificates. The building not only has a great look, but also guarantees the best working conditions.

### Our collection strategy

We believe that design makes a difference. The fact that we have won the prestigious international Red Dot award in 2014 and 2016, for our Shenzhen X series and Icook collection, emphasizes that. From that point of view we have attracted top designer Nicolas Thomkins to work with the HIGOLD outdoor collection. He is worldwide known and famous for his original signature, iconic designs & functional furniture and is also a Red Dot award winner. In 2016, Pininfarina Extra started to work with us in designing our new head office and also furniture, which sets a benchmark in HIGOLD's history.

Sincerely,

Founder & President of the HIGOLD group

## Unique Features

The overall forms are reminiscent of the great China spacecraft while also creating comfortable outdoor living structures.

Emphasis and exposure of the internal aluminium structure provides a sense of security to the user, it also creates a distinctive visual aesthetic.

Heavy duty aluminum frames provide a strong and secure structure. High quality woven wicker provides a strong solid structure and allows the users to trust fully in the end product

Ability to be stacked into complete units allows an attractive structure when not in use and makes the pieces efficient for storage.

The unit can be used as a single enclosed day bed or the units can be separated to create two open sofas with a separate coffee table and small lounger. The complete unit has the ability to be stacked for efficient transportation purposes and also to maintain space and create unique structures when the pieces are not in use.

The collection offers a full suite to satisfy every outdoor relaxation requirement, from sleeping to eating to swinging. The user is fully equipped to fully enhance and enjoy their outdoor living environments to the fullest.

## A Dreamer in Space Exploration, Exploring the Secret of Nature

The inspiration of Shenzhou X comes from Shenzhou X spacecraft and its re-entry module. The design combines the idea of wide light brown wicker and exposed white coating color, which makes the frame clean and simple. Floating across the clouds, Shenzhou X is more like a sacred auto and lead people to a future outdoor lifestyle. Hung from ceiling, seen to be taking off into the sky, the openness and freedom naturally generates a different kind of beauty.

The unique design of Shenzhou X allows numerous configuration set-ups, in storage and in use. It is designed to be easily assembled and set up. The design has a special locking feature to hold the pieces securely together when in the stacked configuration. Top quality wicker, teakwood and fabrics withhold the ability to withstand outdoor conditions. When assembled, on the top you can find the coffee table and next to the coffee table is the upper weaving cover which can become a separate daybed by combining with the footstool. This completely demonstrates the idea of space-environmental protection. It runs over with warmth and sweetness when the sunshine goes across the wickers.
